PROJECTS

BrewMetrics - BrewMetrics is a mobile app that measures the logistics of your beer drinking habits and the habits of your friends. Update your beverages in real time and keep track of money spent, drinks had, and your current drink status. *Built in React Native.*

ourTable - Farm to table application connecting local farms with local restaurants. Easy accessibility to increase sales and consumption of locally produced goods in a way that makes economic and financial sense for both the buyer and the seller. *Ruby on Rails.*

Neuportpleasure.com - Music page for Producer/DJ, Neuport. *HTML/CSS/JavaScript.*
